

A supportive, stimulating environment promoting each child's personal growth through:

- Intimate class sizes of 12-14 students
- A full week, 5-day program – with time to transition to a full-day program
- Safe, dedicated indoor and outdoor early learning spaces
- Discovery/Science Lab for STEM (Science, Technology, Engineering and Math) projects
- Native-speaking English and French teachers
- A full range of early education subjects including numbers, letters, and science
- Specialist teachers for art, music, science and French

Open to children who are 3-years-old by September 1 of the given school year and fully toilet-trained.

For further information, and to enroll your child, please contact our Admissions Office with any questions.

AMERICAN SCHOOL
OF PARIS
founded 1946

ASP Early

**Launching
Fall 2016!**

A full-time program immersing 3-year-olds in a world of exploration, thinking and discovery at the American School of Paris

AMERICAN SCHOOL
OF PARIS
founded 1946

The American School of Paris is a vibrant, international, family-oriented community. Our mission is to inspire and prepare every student to achieve personal and academic excellence as an engaged global citizen by providing a challenging, innovative program within a compassionate environment.

We proudly announce the birth of a new early education program to extend this mission to encompass our younger community members. This pioneering Early Childhood initiative rounds out our offer of a high quality comprehensive pre-school through high school educational program.

Projects and Play, Indoors and Out

Designed as a progressive path toward the ensuing school years, the program alternates projects and play. A variety of challenges are introduced in each learning area, giving participants a jump start into the joys and rigors of an ASP education.

Daily time in the outdoors plays a vital role. Nature walks, along with work in both the new Discovery Lab and the ASP gardens, are essential components of the activities, the teaching and learning.

Classes are taught in English with French used every day for both special courses and in dedicated language instruction.

Creating Confidence as a Learner

“Open Days” are offered in September and early October for parents who wish to accompany their child in the classroom, helping ease the transition from a home to a school environment.

Active and quiet time – with blocks of structured and unstructured play – promote individual intellectual, social, emotional and physical development, contributing to each child’s burgeoning autonomy.

I explore,

I think,

I discover!
